TRAFFIC CONTROL PLAN DESIGN

WE CAN DESIGN CUSTOM TRAFFIC CONRTOL PLANS TO FIT YOUR REQUIREMENTS FOR ANY PROJECT. EVERYTHING FROM TEMPORARY LANE CLOSURES TO DETOURS AND ROAD CLOSURES.

CHANNELIZERS

- Traffic Cones
- Traffic Drums with Base
- Barricades

BARRIER & ATTENUATORS

- Concrete Jersey Barrier
- Water Filled Barrier
- Pedestrian Barrier
- Crash Cushions
- Ground Mount Attenuators

SIGNS

- Road Work Signs
- Detour Signs
- Sign Stands (compact or full size)
- Sign Posts

POWER EQUIPMENT

- Cone Trucks
- Truck Mounted Attenuators
- Message Boards
- Arrow Boards
- Light Towers

TRAFFIC CONES & WEIGHTS

JBC cones are manufactured using premium grade PVC injection molding technology, resulting in the most durable traffic cone on the market.

AVAILABLE IN:

- 18", 28" or 36"
- Lime Green or Orange
- Standard or Slim Body
- 7lbs., 10lbs. or 15lbs.
- With or Without 3M HI Intensity reflective cone collar

Weights for traffic cones are available in 4.5 and 7 lbs.

TRAFFIC DRUMS

- Drums meet relevant MUTCD requirements
- Molded handle accepts warning lights for increased visibility
- Retro reflective sheeting meets all state and federal specifications, and is available in 4" and 6" wide bands
- Engineer, Hi-Intensity and Diamond grades
- The patented tire collar ballast are made from recycled truck tire sidewalls, our tire collar weighs 25 lbs.

CHANNELIZER TUBES

- The Navigator Tube is available in 28" and 42" heights.
- The Navigator Tube accepts up to two bands of 4" retro reflective sheeting, available in Engineer, Hi-Intensity and Diamond grades.
- The 4.5" center hole base is available in 8, 12 and 18 lb. weights

Custom stenciling is available for all of the items above.

BARRICADES**A-FRAME BARRICADES**

The A-Frame barricade has heavy duty molded polyethylene A-frame legs with molded in light holders and a crossbar sheeted with (engineer grade or high intensity grade) orange and white stripes.

- Height of leg: 40"; to top of board: 36" min.
- Leg Spread: 30" nominal
- Pocket: 2" x 8" nominal
- Approximate weight two A-frame legs: 14 lbs.

**TYPE III BARRICADES**

This two-piece breakaway barricade is made from Linear Low Density Polyethylene, meaning these barricades will not shatter or break apart on impact.

These units are rotationally molded from a modified polyethylene that increases their resistance to ultraviolet degradation, increasing lifespan and reducing total cost.

Our two-piece barricade is designed with a unique stacking detail allowing units to interlock with one another for added convenience during break down and transport.

Overall size is 48.5" L x 36.5" W x 56" H with an assembled weight of 20 lbs. 8" x 48" blank or striped panels are available as an option.

ATTENUATORS

CRASH CUSHIONS

These cushions have been tested and are certified to NCHRP-350 Test Level 3.

1 CrashGard sand barrel accommodates all weight requirements:

- with insert: 200, 400 or 700 lbs.
- without insert: 1,400 or 2,100 lbs.

Designed for easy transport

Squared bottom half accepts forklifts

Easily apply 4" and 6" reflective sheeting to upper tiers

Blow-molded manufacturing yields a stronger sand barrel

GROUND MOUNT ATTENUATORS

The TAU-II Attenuator is a fully redirective, non-gating, bidirectional Impact Attenuator. It was designed for safety and reusability.

FEATURES

- Variable force not fixed force
- Severe duty performance
- Lower average ride down G forces
- Low angle of exit on side impacts
- Reduced snag potential on side impacts
- Minimal spare parts required
- Outstanding reset ability
- NCHRP 350 APPROVED

WATER FILLED BARRIER

This water barrier is a plastic barrier constructed of high density polyethylene. This is a channelizing device that can be filled with sand or water to increase weight. A state of the art swivel pin is used to link the barrier together. It is the only unit made that does NOT require end pieces or different units to attain radii & can be angled at 90°!

MADE IN THE U.S.A. 

TYPICAL USES

- Temporary Work Zones
- Road Detours
- Sporting Events
- Construction Projects
- Demolition Areas
- Theme Parks
- Airports
- Parking Garages

FEATURES

- Light weight, up to 800 ft. per truck
- Orange and white standard colors
- Links together with a swivel pin
- 90 degree turn radius
- Easy to install

SPECIFICATIONS

• Length	60"	1510 mm
• Height	36"	900 mm
• Top Width	7 5/8"	190 mm
• Base Width	24"	600 mm
• Weight Empty	50 lbs.	23 kg
• Weight Filled	683 lbs.	310 kg

PEDESTRIAN BARRIER**FEATURES**

- Unique, built-in hand grips
- Fast, easy handling and installation
- Easy, one person carry and install
- Close pickets, tight interlock
- Easy repositioning
- Smooth edges, no sharp points
- Two design in stock ready to ship

SPECIFICATIONS

- Size 43" H x 102" W
- Frame 1-5/8" Tube
- Picket 3/4" Tube
- Stand T or Y, 24" wide w/Set-Pin
- Weight 44 lbs.

TYPICAL USES

- Crowd Control & Political Events
- Parades & Public Gatherings
- Traffic Control & Ticket Lines
- Emergencies & Govt. Agencies
- Running & Biking Paths
- Restaurants & Outdoor Dining
- Parties & Receptions
- Concerts & Paid Admission
- V.I.P. Security
- Carnivals & Amusement Parks
- Sporting Events & Stadiums
- Festivals & Fundraisers

BARRIER REFLECTORS**TOP MOUNT UNIT REFLECTOR****FEATURES**

- 6" x 12" x 3.5" Reflective Area
- HDPE All Plastic
- 90° Bend measures 3.5"
- 3 Holes in Bend for Glue
- 3M Hi Intensity Prismatic Sheeting (Standard)
- Designed for Glue On Applications with seat holes pre-drilled
- All MUTCD colors available
- Engineer Grade or Diamond Grade Available
- Single or Double Faced

SIDE MOUNT UNIT REFLECTOR**FEATURES**

- 3.5" x 3.5" x 2" Reflective Area
- HDPE Plastic with Flexible Hinge
- 4 Holes in Base for Glue
- Impact resistance with added flexible hinge holds up for multiple hits – Will Fold Down and Spring Up
- 3M Hi Intensity Prismatic Sheeting
- Single or Double Faced
- Designed for Glue On Applications with "seat" holes pre-drilled
- All MUTCD colors available
- Engineer Grade or Diamond Grade Available

**REFLECTOR ADHESIVE**

Approved for concrete and steel applications.

AVAILABLE FOR SALE OR RENT CALL 856-845-8201

PAVEMENT MARKINGS**REFLECTIVE TEMPORARY TAPE**

Available in:

- 4" or 6" width
- 360' Rolls
- Yellow or White

**REFLECTIVE CHIP SEAL MARKERS**

- 4" wide 2" tall polyurethane marker body
- Self-adhesive takes only seconds to install
- Clear flexible protective cover keeps oil off the reflector
- Ideal for chip seals, sand seals, slurry seals, and pre-marked centerline locations
- 3M Engineer Grade Reflective stripe

**MARKING PAINT**

Ideal for a wide variety of surveying and marking applications. These paints work well on gravel, black top, grass, stone, concrete and other surfaces. Convenient spray through cap and non-clogging tip provide reliable one-stroke application. Solvent based, VOC compliant, no lead marking paint is available in 20 oz. cans.

WARNING LIGHTS**TYPE A, B & C WARNING LIGHTS**

We stock type A, B and C warning lights. They are available in standard 6 volt, D cell or Solar Assist D cell and Detachable. All models meet MUTCD and NCHRP 350 standards. Batteries are also available.

**VEHICLE WARNING LIGHTS**

We offer a full line of warning lights in a broad range of configurations to meet your specific requirements. Several mounting options are available including magnetic mount, vacuum/magnetic mount, permanent/flush mount and pipe mount.

STOP/SLOW PADDLES

Available in:

- 18" or 24"
- Reflective or Non Reflective
- With or Without Handles

LED LIGHT BATONS

Our LED Traffic Control Batons are a highly visible traffic safety light for getting the attention of pedestrians or drivers. Ideal for: police and sheriff's department officers, valet parking attendants, school cross walk guards, and road construction crews.

HIGHWAY SAFETY FLAGS

Heavy-duty vinyl coated nylon safety flag that is ideal for roadside construction signs and for directing traffic. Available in orange or red, 18x18 or 24x24.

SIGN STANDS

WindMaster® sign stands have been engineered using the highest quality components and thoroughly tested to ensure exceptional performance. The bases are equipped with springs that have strong initial tension to resist twisting and turning of sign in high wind gusts. The aircraft aluminum legs have kick-release buttons to simplify set-up and take-down and rubber caps for traction. Each leg is adjustable for stability on curbs or uneven terrain. All WindMaster® sign stands are NCHRP 350-accepted.

**Available For Various Applications**

- Roll UP Signs
- Compact & Full Size
- Median Barrier Mount
- Guard Rail Mount

SOLAR ARROW BOARDS

The Arrowmaster™ Pro-Line Solar-Assisted Advance Warners are a versatile, low-operating-cost arrow board that provides maximum visibility at all times while directing traffic through construction zones. This system is powered by a battery storage bank charged by a top-mounted, shadow-free solar panel. The Arrowmaster conforms to and, in most cases, exceeds all federal and state MUTCD specifications.

FEATURES

- All-aluminum panel construction
- Minimum one-mile visibility
- Voltage: 12-volt system
- 4D deep-cycle batteries
- Amber LED 46 lamps provide for extremely long lamp life (approx. 100,000 hours)
- Hi-tech, solid-state controller with "Auto-Track"
- Flash Rate: 25-40 times per minute
- Automatic lamp intensity control to insure maximum visibility
- Heavy-duty, welded all-steel construction
- Frame trailer
- Low maintenance

VARIABLE MESSAGE SIGNS**STANDARD 3 LINE MESSAGE SIGN**

- All models meet all requirements of the MUTCD.
- On-board dedicated NTCIP compliant controller
- 5 LED's per pixel provides uniform light output
- Energy-efficient LED display provides minimal battery maintenance and long operational life
- Automatic intensity control provides optimum LED intensity
- Industrial-grade trailer provides stable platform
- Powder-coat paint for improved fade and scratch resistance
- 6-piece lockable polycarbonate slide-out window provides easy access to components
- On-board dedicated NTCIP controller provides easy programming with secure password protection

**STANDARD 3 LINE MESSAGE SIGN (MINI)**

Get the features above, in a compact design

**FULL MATRIX MESSAGE SIGN**

- Industrial grade trailer provides years of dependable service
- Sighting device assures proper directional alignment
- Built-in 25 amp/120 volt battery charger
- 360° message panel rotation
- Calendar program for specific operational times
- Moving and flashing arrow displays
- Heavy duty surge brakes
- Automatic intensity control

LIGHT TOWERS

Uses state-of-the-art technology to achieve superior illumination — exceeding government regulations for worksite illumination. With four 1000-watt light fixtures atop a 30-foot variable-height mast, Wanco light towers shine a uniform light pattern across the entire job site.

SPEED CONTROL MONITOR

18" Amber LED Characters

- Legible at up to 1000 ft.

4D Deep Cycle 12-Volt Batteries

- Provide over 18 days of continuous operation yielding longer operation time between battery charges.

Hand-held controller

- Provides all programming and diagnostic functions.

EMERGENCY RESPONSE TRAILER

HAVE ALL THE EQUIPMENT YOU NEED ON ONE UNIT FOR IMMEDIATE RESPONSE TO EMERGENCY SITUATIONS.

CHOOSE FROM STANDARD, ENCLOSED OR CUSTOMIZE YOUR OWN PACKAGE. YOUR ORGANIZATION'S NAME WILL BE STENCILED ON THE TRAILER, CONES, WATER BARRIER AND BARRICADES.

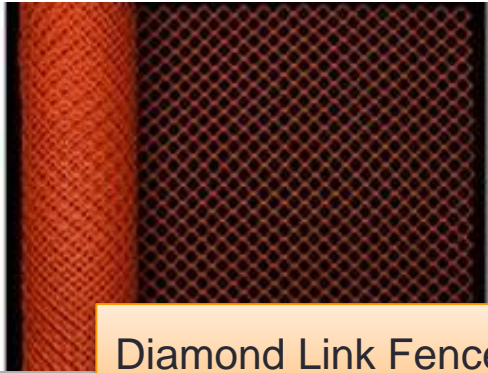

STANDARD PACKAGE INCLUDES:

- 14' TRAILER WITH 12" SIDES AND REAR RAMP FOR FAST DEPLOYMENT
- 50' WATER FILLED BARRIER (10 PIECES)
- 5 - FLASHING BARRIER LIGHTS
- 10 - A-FRAME BARRICADES (8' EACH)
- 50 - 28" REFLECTORIZED CONES
- 4 - CLASS III REFLECTIVE VESTS
- 4 - LED TRAFFIC DIRECTOR BATONS
- 4 - EMERGENCY FLAGS
- 12 - FLARES
- 2 - ROLLS CAUTION TAPE
- 2 - STOP SIGNS WITH WEIGHTED BASES
- 2 - ROAD CLOSED SIGNS
- 10 - DETOUR ARROW SIGNS (CONE MOUNT)

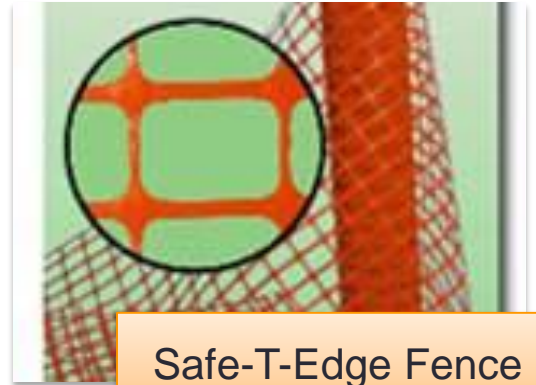

**ENCLOSED PACKAGE INCLUDES:**

- 1 - 14' ENCLOSED TRAILER WITH REAR RAMP, 1 SIDE DOOR AND INTERIOR LIGHTING
- EVERYTHING LISTED IN STANDARD PACKAGE

SAFETY FENCE

Diamond Link Fence

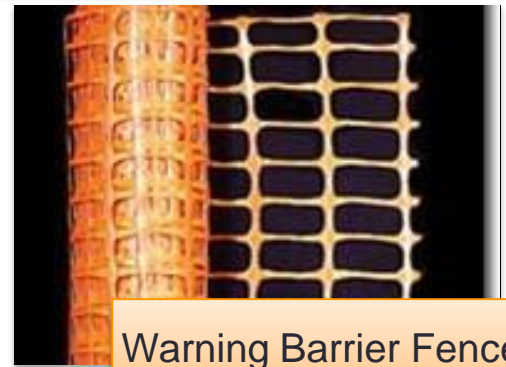

Safe-T-Edge Fence

Versatile and economical plastic construction site safety fence. In lightweight 4' x 100' rolls or 4' x 50' rolls. Flexible warning barrier fence is easy to handle as well as install.

SIGNS

ROLL UP SIGNS

CONSTRUCTION SIGNS

Our roll up construction signs are perfect wherever temporary traffic signs are needed. The reflective signs work perfect for both daytime and nighttime jobs. The signs are lightweight and foldup for easy storage. They are very durable and quick and easy to set-up and take-down. Standard MUTCD and custom legends are available.

EMERGENCY MANAGEMENT SIGNS

The emergency management signs are perfect in an emergency situation. The fluorescent pink sign is easy to see and informs drivers of the danger ahead. These signs are typically used for:

Fires
Vehicle Breakdowns or Crashes
Law Enforcement Activities
Motorist Medical Emergencies
Emergency Evacuation Routes
Hazardous Material Spills

ROLL UP SIGN STANDS

We also offer stands for all of our roll up signs.
